The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Bertoni .175.

The elongated member is either of 27a or 27b, as they are integral they meet the "adapted to be attached" limitation. The "mounting member" is either of 31 or 41, both of which meet claim 1, clause (b). Col. 7, line 39, calls for a "groove" and as seen in Figs. 1-2 the support 41 engages in the groove. This would inherently meet the phrase "is configured to slidably engage" if by no other means than initial insertion of 41 into the groove.

Claims 9-12 and 21-30 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
